Viktor is a 12-year-old who can't speak. Diagnosed with Autism at an early age, he hasn't let his limitation in comprehension and verbal abilities limit his artistic talent.

Viktor began to show signs of Autism at the age of 2. After a change in behavior testing led to a diagnosis of autism. By the age of 5 his parents began to take notice of his talent in art and within a few years his technique developed even though he was self-taught and he started to express himself through his art.

He proves Autism is no barrier to creativity. He has ability to focus on detail and he can understand how colors interact with each other.

He was raised in Serbia and his parents made a big step in their lives and moved to the USA in the end of 2018. He lives in Florida.
